The Mysterious Bathroom Expedition

Date: 12th November 2025
Subject: Investigation into Student Missing for 27 Minutes During Math

During a double Math period, student Arjun requested to use the bathroom. Twenty-seven minutes later, he returned with wet hair, a half-eaten samosa, and faint guilt. Teacher demanded explanation; he claimed he had "lost track of time while reflecting on numbers." Classmates revealed he was last seen casually chatting near the senior wing, holding what appeared to be cafeteria food. CCTV confirmed him high-fiving a group of 11th graders and staring into the distance dramatically for no apparent reason.

Evidence includes samosa crumbs, damp hair, and a suspiciously peaceful expression. Motive likely boredom, with traces of hunger and wanderlust.

Found guilty of truancy and minor poetic behavior.
Sentence: one week of sitting in front row.
